Intended use of Chemical Compound Any food processing area.

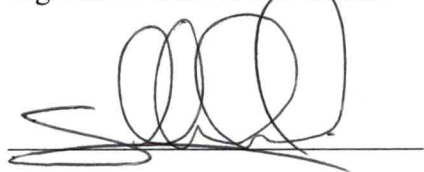

I Steve Moubarak, on behalf of Mixa Australia Pty Ltd, as the manufacturer of the above chemical compounds for PSC Trading, declare they are suitable for use in export registered meat or meat product establishments for the purposes stated in this application, that I have supplied a copy of the label and SDS with this declaration and acknowledge that this declaration is subject to the following conditions:

The substance identified above, when used in accordance with the directions on the label is fit for the purpose for which they are to be used and to the best of my knowledge will not contaminate animals, meat and meat products.

This declaration is rendered invalid by:

1. Any change in the formulation of the chemical compound,
2. Any change in the instructions for use in the chemical compound,
3. Any incorrect and/or unintended use of the chemical compound.

Signature of Steve Moubarak

Date: 13th March 2023

Declaration of Qualified Chemist

The substance identified above, when used in accordance with the directions on the label is fit for the purpose for which they are to be used will not contaminate animals, meat and meat products.

Printed name of qualified Chemical Engineer: Robert McKenzie

Qualifications: Bachelor of Chemical Engineering (Hons.)

Signature of Robert McKenzie

Date: 13th March 2023

NOTE: Although the above inks are intended for use in an export meat establishment, export registered establishments must also meet any relevant importing country requirements. For example, certain destinations do not accept carmoisine dye. Mixa Australia does not warrant or guarantee an ink is suitable for a particular country. Our SDS discloses the raw materials used in the manufacture of each ink to allow establishments to undertake necessary due diligence to ensure they meet importing country requirements.
