

ABENA San

High-Quality Incontinence Products

ABENA San Range

ABENA San is our premium range of anatomically shaped pads.

Sizes 1-4 are designed for light to moderate incontinence and have an adhesive release tabs. Sizes 5-11 are designed for moderate to heavy incontinence and should always be used with special fixation underwear like the Abri-Fix or well fitted underwear to ensure a close fit to reduce the risk of leakage.

The two-piece system of a fixation pant and an incontinence pad are a cost-effective solution that uses less materials, has less impact on the environment and increases quality of life.

ABENA San Features

- 100% breathability
- Optimal leakage protection due to soft and reliable leakage barriers that extend right to the edge
- Top-Dry Technology that provides rapid absorption and a dry surface
- Excellent absorption provided by long cellulose fibres, super absorbents and an additional core in the centre
- 360 degree leakage protection
- Soft and noiseless
- Latex-free and non-chlorine bleached
- Wetness indicator graduation scale guides

SA1000021313	ABENA San Premium	11	Pink 	73 x 37cm	3400ml	21	84

ABENA San Special

The ABENA San Special is a large pad uniquely designed to hold large volumes of faecal waste while preventing any leakages. These pads are designed as part of a two-piece system that includes the use of fixation pants. Latex free and featuring built-in pockets, the pad contains super-absorbent polymers making it suitable for both urinary and faecal incontinence.

Product Code	Description	Size	Colour Code	Pad Size	Capacity*	Units Per Pack	Units Per Carton
SA1000021314	ABENA San Special	Special	Light Green 	73 x 37cm	2000ml	30	120

ABENA San Bariatric

ABENA San range of anatomically shaped pads designed for bariatric use. The longer pad provides greater security to suit a range of body shapes.
