**Disclaimer:**

The information provided is based on the product's manufacturer and a copy of manufacturer's declaration is held on file. We have every reason to believe that the information provided is accurate.

**COMPLIANCE:** The films comply with Australian Standard AS2070 “Plastic Materials for Food Contact Use” and with relevant regulations of the United States of America Food and Drugs Administration as set out in the Code of Federal Regulations 21CFR Parts 170 to 199 and any subsequent amendments or revisions.

**SAFETY:** PVC Film is essentially self extinguishing due to its chlorine content. However if it is lit, it may evolve hydrogen chloride gas (a corrosive material) so great care must be exercised.

***Ensure that children do not place film over nose and/ or mouth***

**STORAGE:** The film should not be subjected to prolonged extremes of temperature or direct sunlight and should ideally be stored below 20°C. This product is manufactured in roll form and should be stored in an upright position.
