TENA Product Change Advice

Issued July 2022

TENA PROskin Pants Plus Extra Large

TENA pants are made of textile like, breathable materials with the pull-up fit just like regular underwear. Soft and comfortable incontinence pants designed for women and men, that are great for both day and night. Our FeelDry Advanced™ material quickly draws liquid away from the surface and the fast-absorbing core then rapidly locks in urine keeping the skin free from moisture, helping to maintain skin health.

What is different

Our TENA Pants Plus Extra Large is now thinner with no compromise on absorbency. More comfortable with the same protection
