

# BONING ROOM MIX

## DESCRIPTION

BONING ROOM MIX is a combination of selected wetting agents and water conditioners formulated to provide a stable high foam when used through appropriate equipment to penetrate, soften and remove protein matter, fats and blood in abattoir boning rooms, cattle kill floors and other food processing areas. BONING ROOM MIX is compatible with HYPOCHLOR.

## DIRECTIONS FOR USE

BONING ROOM MIX is made up as a foam concentrate by adding 75 mL per litre of warm water and applying to vertical and horizontal surfaces by means of an appropriate foam gun. If a sanitising effect is required, add HYPOCHLOR (Sodium Hypochlorite) at the rate of 125mL cup to each 8L of made-up BONING ROOM MIX solution to provide approximately 200 ppm of available chlorine. For general cleaning use 200-300 mL in 10 litres of water.

Consult your representative for further technical information.

## SAFETY INFORMATION

BONING ROOM MIX is classified as Hazardous according to the GHS.

BONING ROOM MIX is NOT classified as Dangerous Goods according to ADG Code (7<sup>th</sup> Ed).

BONING ROOM MIX is NOT a Scheduled Poison according to SUSMP.

Avoid contact with eyes and skin. Refer to SDS for further information.
