Sure Link Crystal

A8.8

Mechanical ware washing rinse aid using the Sure Link® system

Description

Suma® Sure Link® Crystal A8.8 is a concentrated acid rinse additive, which lowers the surface tension of water and ensures drying of kitchen equipment after applying it to the ware washing machine. Its range of rinse aids suits all water hardness and solid condition.

Features

- A concentrated acid rinse additive which lowers the surface tension of the final rinse water
- For mechanical ware washing rinse aid
- Ensures quick drying without water stain
- Contains scale control agents to keep the machine free from scale in medium hard and hard water conditions

Benefits

- Ensures quick drying
- Gives streak and spot-free results
- It also prevents heavy foaming in dishwashing machine
- Being highly concentrated gives excellent economy in use

Application areas

- Hospitality
- Lodging
- Healthcare
- Food Service

Mechanical ware washing rinse aid using the Sure Link® system

Directions for use

Suma Sure Link Crystal A8.8 is normally injected automatically into the final rinse water of ware washing machines at a concentration of 0.2-0.6 ml/l at temperatures ranging from 82-90°C using Sure Link dosing equipment. Actual dosage levels may vary according to local site conditions.

Technical data

Appearance	Clear dark blue liquid	pH (neat)	≈ 4
Relative density (20°C)	1.01	Dilution	0.2-0.6 ml/L

The above data is typical of normal production and should not be taken as a specification.

Product	Pack size	SKU Code	Availability
Suma® Sure Link® Crystal A8.8	2 x 5L	9310563	AU

Safe handling and storage information

Store in original container. Avoid extremes of temperature and humidity. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet

Product compatibility

Under recommended conditions of use, Suma® Sure Link® Crystal A8.8 is suitable for use on most materials commonly encountered in the kitchen. The neat product is corrosive towards brass and copper. Do not dose the product before the boiler and try to avoid the use of copper/copper alloy piping or use a stainless steel injection point.

Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available online at www.diversey.com or by calling Toll free: Australia, 1800 647 779 or New Zealand, 0800 803 615.
