

# Product Specification Sheet

<b>Product Code:</b>	<u>KWSSLBR</u>
<b>Product Description:</b>	<u>KW/MASTR SOLUBL SEAM LAUNDRY BAG RED</u>
<b>Product Information:</b>	<u>LDPE bag with a water soluble tie attached on the bag, with a water soluble tie for closing.</u>
<b>Carton Barcode:</b>	<u>19325191025242</u>

## Physical Specification

<b>Length (A):</b>	<u>990mm</u>
<b>Width (B):</b>	<u>720mm</u>
<b>Gussett (C):</b>	<u>500mm</u>
<b>Open width:</b>	<u>720mm</u>
<b>Thickness:</b>	<u>30 microns</u>
<b>Material:</b>	<u>LDPE</u>
<b>Virgin or Recycled:</b>	<u>Virgin</u>
<b>Film Colour:</b>	<u>Red</u>
<b>Printed:</b>	<u>No</u>
<b>Bag Weight:</b>	<u>41 Grams</u>

## Quality Specification

<b>Tensile load MD:</b>	<u>14.7 MPA</u>
<b>Tensile load TD:</b>	<u>20.1 MPA</u>
	<u>7.5 MPA/MD</u>
<b>Base seal strength:</b>	<u>10.0 MPA/TD</u>
<b>Dart impact:</b>	<u>20gram /30 thickness film</u>
<b>Lift capacities:</b>	<u>5KG</u>

## Packing Specification

<b>Count per pack:</b>	<u>50pcs</u>
<b>Flat pack or Roll:</b>	<u>Flat pack</u>
<b>Pack per outer bag:</b>	<u>5 packs</u>
<b>Core material:</b>	<u>No core</u>
<b>Outer bags per carton:</b>	<u>5 plastic bags</u>
<b>Carton dimensions:</b>	<u>400x300x170mm</u>
<b>Weight per carton:</b>	<u>10 KG</u>
<b>Cartons per layer:</b>	<u>in loose pack</u>
<b>Layers per Pallet:</b>	<u>in loose pack</u>

**Country of Origin:** China

## **SOLUBLE SEAM LAUNDRY BAGS OPERATING INSTRUCTION**

### ***For the safe containment and transportation of soiled or infectious linen***

The soluble seam bag fulfills the need to effectively and conveniently treat contaminated linen. The soluble seam bag prevents the handling of contaminated linen from its initial pick-up to completion of its wash.

### ***Features & Benefits***

#### **Construction**

The soluble seam bag is manufactured from polyethylene with a dissolvable seam fixed down the middle of the bag. When the seam dissolves during the initial stages of the laundry cycle, the bag opens up allowing the infectious and/or soiled linen to be released. A detachable soluble tie tape is also used to seal the bags opening.

#### ***Suitability***

The opening allows linen to be placed into the bag with ease. The seam is located on the outside of the bag to prevent seam dissolving upon contact with the damp linen and during transportation

#### ***Infection control***

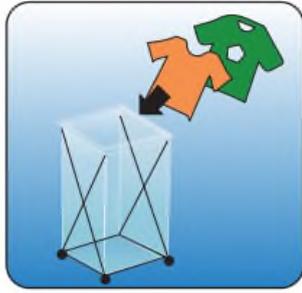

The soluble seam bag liner confines the infectious linen inside the bag and prevents bacteria or infection transmission.

#### ***Sizes***

Standard 720mm wide x 990mm depth x 30um Box 250 (packed into 5 packets of 50)

Standard is available in RED or YELLOW

#### ***Instructions for use:***

### STEP 1

Place soiled items into the Soluble Seam Laundry Bag.

### STEP 2

Dispell the air from the bag and tie the top of the bag with the dissolvable tie provided. **DO NOT TIE A KNOT WITH THE BAG.**

### STEP 3

Place the bag into the washing machine and select the wash program.

### STEP 4

Within 30 seconds the bag's seam will dissolve and the contents will begin to wash.

### STEP 5

At the end of the wash, remove the used bag and discard to plastic recycle bin or general waste.

Comes standard with a soluble tie to seal the bag. This helps to eliminate the transfer of viruses and bacteria via the air and keeps items secure ready for washing. If excessively wet, items are placed into the bag, use a towel or similar to wrap the items as excessive moisture in the bag will start to dissolve the seam before the bag is delivered to the laundry causing the bag to prematurely open.
