**Product Description**

Bambo Nature is not only committed to providing a comfortable, absorbent diaper for your child, but also to leaving the world a better place. Based on Nordic traditions for sustainability, we produce diapers with ecofriendly manufacturing processes, while ensuring they are free of dangerous chemicals and perfumes to minimize the risk of allergy and diaper rash. The diaper is FSC™, Nordic Swan, EU Ecolabel (CE marked products excepted) and Asthma Allergy labelled. Above that, it is dermatologically tested. Bambo Nature – Because you care.

**Instructions for use/application**

1. Clean the diaper area. 2. Place the diaper under the baby's body and adjust the diaper below the navel. 3. Pull the velcro tapes properly and adjust

in a symmetrical position. 4. Readjust if needed, to ensure a comfortable fit.

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to [www.fsc.org](http://www.fsc.org).

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

Asthma Allergy Nordic guarantees that products are approved by experts from Asthma-Allergy Denmark. Products with the label do not contain perfume and dyes, and they pose a minimal risk of skin allergy development.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The product has a very soft surface for a more comfortable fit.

Flexible side panels for optimal fixation, easy application, snug and secure fit.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.
