- ✓ High performance core with Top-Dry Technology
- ✓ Invisible leakage barriers for extra protection
- ✓ Support healthy skin balance
- ✓ Adhesive release tape with names, colour code, drops and application guide.
- ✓ Odour Control

Product Description

ABENA San 1-4 is our Premium range of anatomically shaped bladder protection pads for light to moderate incontinence with adhesive release tape. The high performance core with Top-Dry Technology ensures fast absorption and a dry surface even after multiple voids, maintaining skin integrity. The fully breathable pads are fitted with invisible lying leakage barriers for extra protection. When combined, these functionalities keep the skin in balance and maintains a natural pH skin balance. The odour control system minimises unpleasant smells. The dermatologically tested products feature the Nordic Eco Label and are made from FSC certified materials.

Specifications

Base name	Shaped pad
Brand	ABENA

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

The product does not contain latex.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odour control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal odour arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
