- ✓ Leakage security with a narrow core and high barriers suited for juniors
- ✓ Optimum fit with super soft elasticated side panels
- ✓ Full breathability ensuring daily comfort and healthy skin
- ✓ Designed for juniors aged 6-12

Product Description

ABENA Pants Junior XS2 is our Premium pants designed for juniors with quick and uncontrolled urination and who would otherwise fall between baby diapers and adult incontinence products. The fully breathable product offers a narrow core and super soft elasticated side panels for optimum fit perfectly suited for juniors. The specially designed Channel Technology and Top-Dry Technology offer quick absorption and a comfortable, dry feeling. Also, the product is designed to look more like ordinary underwear with a printed textile-like backsheet. The dermatologically tested products have been given the Nordic Swan Ecolabel and are made from FSC certified materials.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Asthma Allergy Nordic is a proof of the product being recommended by the experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy development.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

Specially designed channel technology for quick absorption and dry feeling.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The product does not contain latex.
