- ✓ Spray
- ✓ IAD
- ✓ No need to smooth out with hands
- ✓ Reduces contamination

Product Description

Abena Zinc Oxide Spray protects and regenerates the skin, promoting a natural skin restoration for up to 24 hours.

Thanks to its spray applicator friction is minimized and the applicator also helps to prevent contamination.

The Zinc Spray helps to improve skin barrier over time, resulting in hydrated skin that is protected against potential irritants (for example urine).

Zinc Oxide is known for its antiseptic properties and the product has been designed to help calm irritated skin. Our Zinc sprays have already proven to be excellent in promoting a healthy skin condition.

Can be used on both children and adults.

Contains Calendula and Chamomile which are known to soothe, calm and promote the natural recovery of the skin.

Sprays a perfectly thin layer because of TLT (Thin Layer Technology).

Use where redness is detected and first signs of IAD are visible.

Shake before use. Use a spraying distance of approximately 10-15 cm. and preferable in a sweeping motion.

It is not necessary to further rub in the cream. Use at every continence product change.

Dosage according to need. No colorants or perfume. This product should only be used externally on the body. Avoid contact with eyes.

Specifications
