Product Description

ABENA Pants Bariatric is our modern disposable pants for people with hip size up to 203 cm that can be worn like normal underwear for moderate incontinence. The products are fully breathable and feature the Top-Dry system for optimum comfort and skin protection and care. The soft pants are equipped with a waistband made of multiple strands of elastics which offers a secure and comfortable fit for the active user. The products are also fitted with standing leakage barriers for extra protection. The Odor system minimizes unpleasant smells.

Instructions for use/application

Pull-up pants for moderate incontinence, which can be used as regular underwear. Put on the pull-up pants like regular underpants - avoid touching the inside of the pad. After use, when you need to change the pad, tear it at the side seams and pull it away. It is then rolled up and discarded. Blue elastic threads in the waistband indicate the back of the product. Product size recognizable by color, name, and number system.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

PEFC™ (Program for the Endorsement of Forest Certification) is a non-profit organization that promotes sustainable forest management. PEFC™ is the forest owners' own organization, and its purpose is to help manufacturers and consumers choose sustainable wood.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Odor control is a critical factor in ensuring discretion for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
