MD CE UKCA

Product Description

ABENA Pants Special is our Premium range of disposable pants that can be worn like normal underwear for moderate incontinence. The products have legs and unique elasticity in both the legs and crotch area providing the ultimate fit during physical activities.
 The products features the Top-Dry Technology for optimum comfort and skin integrity. The modern pant is made from breathable material and are fitted with leakage barriers for extra protection. When combined, these functionalities keep the skin in balance and maintains a natural pH skin balance. The elastic threads offers a secure and comfortable fit and the odour control system minimises unpleasant smells.

MD Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

CE The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

UKCA The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

The product does not contain latex.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Odour control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal odour arises from the product.

Effective leakage barriers, both visible and invisible and latex-free elastics ensure a snug fit, which reduces the risk of leakages.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
