Underpad, ABENA Underpads Classic, 60x40cm, light blue, fluff/nonwoven/PE

- ✓ High absorbency
- ✓ Peace of mind and protection around the clock
- ✓ Soft, comfortable material

Product Description

Our ABENA Tissue Underpads Classic are used as protective disposable pads for beds and chairs, for example, to provide user peace of mind in any situation. The underpads are particularly suitable for incontinent users, but are also ideal for use in non-sterile procedures. The disposable underpad has an absorbent surface and a liquid safe back sheet, which, combined with the sealed edges, allow the underpad to provide optimum leakage protection. In addition to helping provide peace of mind when the user is seated or lying down, the use of disposable underpads also serves to reduce the risk of contamination. At the same time, the underpad ensures increased hygiene. The surface is covered with a soft nonwoven material for superior user comfort. ABENA Underpads Classic provide moderate absorbency, and are available in different sizes.

Specifications

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

Raw material that absorbs its own weight 10 times and has excellent fluid dispersion capabilities.

The product is only for single-use.
