25th of July 2025

To whom it may concern,

We hereby confirm that the Polypropylene (PP) used at our manufacturing site is safe for food contact, in accordance with the compliance certificates provided by our supplier. This material complies with the FDA requirements as stipulated in the Code of Federal Regulations, specifically 21 CFR 177.1520 Olefin Polymers (c) 3.1a, which pertains to articles intended to contact food.

Please note that these products are not designed for use in food-holding applications during cooking without undergoing the necessary compliance testing. We strongly advise our customers to conduct their own due diligence to ensure compliance with specific regulatory requirements.

Viscount Plastics Pty Ltd is accredited to the AS/NZS ISO 9001:2015 (Quality Management System) by DQS.
We hope this information meets your requirements.

Kind Regards,

Viscount Plastics
