## Antibacterial Rich-Cream Foam Hand Wash, Perfume-free and Dye-free

### PRODUCT DESCRIPTION

A highly effective, perfume-free and dye-free antibacterial foam hand wash combining Accelerated Hydrogen Peroxide® to kill 99.999% of many common bacteria when used as directed.

### WHERE TO USE

For general use hand washing in food, catering and healthcare environments, or any other workplace, social care or public facility where a high level of hand hygiene is required.

### INSTRUCTIONS FOR USE

- Apply 1-2 doses to wet hands.
- Rub in well across all parts of the hands for 30 seconds.
- Rinse hands thoroughly with clean running water and dry well.

### INNOVATION

FORMAT: FOAM

	DESCRIPTION	BENEFITS
FEATURES	Bactericidal activity	Passes EN13727 in 30 seconds. Chemical Disinfectants and Antiseptics - Quantitative Suspension Test for the Evaluation of Bactericidal Activity in the Medical Area - Test Method and Requirements (phase 2, step 1). Passes EN1499 Hygienic handwash test method and requirements (phase 2, step 2).
	Skin Hypoallergenic	Dermatologist tested to verify and confirm this product has very low allergenic potential.
	Reduces water consumption <sup>4</sup>	Can save up to 45% on water consumption during handwashing compared to lotion soaps.
	Excellent cost in use	Highly economical, only one dose is required to provide effective hand cleansing.
	Convenient, quick and easy	Dispenses foam on the hands which is instantly ready for washing; quickly and easily rinses from hands and sinks.
	Rich-cream foam	Excellent skin feel properties both during and after use.
	Hygienic cartridge	The cartridge is ultrasonically sealed during the manufacturing process to prevent air ingress into the cartridge during normal use, thus minimising the risk of external contamination.
INGREDIENTS	Perfume-free and Dye-free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Contains Accelerated Hydrogen Peroxide <sup>1</sup>	Kills 99.999% of many common bacteria when used as directed.
	Formulated without ethanol or ingredients of animal origin	Helps customers with Halal and Kosher requirements.
	Contains skin conditioners	Helps to prevent drying and leave the skin feeling smooth after use.
CERTIFICATES/COMPATIBILITY	Certified by HACCP International <sup>2</sup>	Certified by HACCP International as being suitable for use in facilities that operate a HACCP based food safety programme (Food Zone Classification SSZ) when used as directed. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food.
	Suitable for food facilities	Product has been independently evaluated and trace amounts of the product are not expected to cause adverse toxicological effects. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Good Environmental Choice Australia Certified Product <sup>3</sup>	This product complies with Personal Care Products standard (PCPv4.1i-2013), GECA Standard which can be read at www.geca.eco. GECA's Ecolabel trade mark indicates the environmental performance of a product has been certified from multi-criteria perspective. Products that carry the trade mark are certified environmentally preferable by GECA.

### SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-au/safety-data-sheets>

### SHELF LIFE

This product has a shelf life of 24 months from the date of manufacture when stored unopened at room temperature.

### HANDLING INSTRUCTIONS

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water (for at least 10 minutes) and seek medical advice. Please refer to label or SDS sheet for safety information.

### CERTIFICATIONS

#### HACCP International Certified

This product and the dispensers it is to be used with have been certified by HACCP International as being food-safe hand hygiene products suitable for use in facilities that operate in accordance with a HACCP based food safety programme in Food Zone Classification SSZ (Splash or Spill Zone). This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food. HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

#### GECA Certified

This product complies with Personal Care Products standard (PCPv4.1i-2013), GECA Standard which can be read at [www.geca.eco](http://www.geca.eco) GECA's Ecolabel trade mark indicates the environmental performance of a product has been certified from multi-criteria perspective. Products that carry the trade mark are certified environmentally preferable by GECA.

### SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, OxyBAC® hand wash does not influence the quality and safety of foodstuffs.

The product has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows -

1. Impact on smell and taste of foodstuffs - The formulation has been independently tested according to 'Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007' and proven to not have the potential to taint food.
2. Possible toxic effects of the ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause adverse toxicological effects.

### QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

### PRODUCT SAFETY ASSURANCE

#### Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults and children above 3 years of age when used as directed, meeting all relevant regulatory requirements.

#### Skin Hypoallergenic Testing

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 8 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredients list before using the product.

#### Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK).

Allergy sufferers should always refer to the ingredient list before using the product.

### WATER SAVING

Independent tests show that washing hands with foam soap rather than lotion soap can reduce average water consumption by as much as 45% when using a modified hand wash approach of dispensing soap on dry hands and turning the tap on only when rinsing off (SC Johnson Professional Sponsored Study: How a simple change in the washroom can significantly reduce water consumption and associated costs. Durrant and McKay, 2011).

**NB: Use this product safely.**

**Always read the label and product information before use.**

### PRODUCT TESTING

TEST TYPE	TEST STANDARD	COMMENT
Bactericidal	EN1499	Passes standard using 1.5ml for 30 seconds. Tested against <i>Escherichia coli</i> .
	EN13727	Passes using standard 30 second contact time. Tested against <i>Staphylococcus aureus</i> , <i>Escherichia coli</i> , <i>Enterococcus hirae</i> and <i>Pseudomonas aeruginosa</i> . Based upon the EN13727 norm, the product is declared under the standard as effective against all bacteria (vegetative) including the following food spoilage organisms <i>Campylobacter jejuni</i> and <i>Listeria monocytogenes</i> .

### INGREDIENTS

AQUA (WATER), GLYCERIN, BUTYLENE GLYCOL, LAURAMINE OXIDE, HYDROGEN PEROXIDE, PHENOXYETHANOL, PHOSPHORIC ACID
