

2 PET Bottles

are used to create

1 r-MICROLIFE Cloth

r-MicroLife is the first recycled cleaning cloth from Oates®. The cloth is made from 100% recycled post-consumer polyester. By using post-consumer materials to create the r-MicroLife we are reducing our footprint and minimizing our impact on the environment. The recycled cleaning cloth is effective and sustainable. It provides the same superior cleaning performance and durability as the virgin fibre product. It removes greasy finger marks and stubborn dirt easily without the use of chemicals.

- 100% Microfibre cleaning power
- Up to 99.99% Bovine coronavirus removal from vinyl surfaces as tested at a 3rd party lab
- 2 PET Bottles are re-used in 1 cloth
- Very high particle pick-up
- Absorbent, excellent for spillage
- Available in four colours: Blue, Red, Green, Yellow
- Cloth size 35cm x 38cm

* Externally Tested by an independent Laboratory on the removal of bovine coronavirus (BCoV). BCoV belongs to the family of the Coronaviridae and is member of the genus Betacoronavirus as well as the SARS-associated coronavirus, SARS-CoV-1 and SARS-CoV-2.

** Externally Tested by an independent Laboratory on the removal of bacteria.
