suma®

Bio-Floor Plus

D3.7

No-Rinse Probiotic Floor Cleaner and Deodoriser.

Description

A bacteria-enhanced, premium-liquid, no-rinse floor cleaner with solvents. Provides a residual cleaning effect on quarry tile floors that can last for up to several days. Great for removing the fats, grease and oils that can build up in the grout and tile pores of quarry tile floors, causing slip-fall accidents.

Features

Suma® Bio-Floor® Plus Cleaner can be used to clean quarry tile, other ceramic tile floors, vinyl, epoxy resin floors and shower tile, but not on wood, cork, floors with finish, marble, terrazzo or linoleum. Do not use with bleach, disinfectants or chemical drain openers as these will reduce product performance.

Benefits

- Bacteria fortified, surfactant and solvent based no rinse liquid floor cleaner and deodoriser
- Beneficial, self-replicating bacteria continue to clean after mopping is complete
- Cleans soils trapped in tile pores and grout
- Removes fat, grease and oil build-ups and eliminates odors
- No rinse floor cleaner – Saves time, labour and water
- Concentrated formulation provides excellent cost in use
- Increase floor slip resistance - Makes floor safer by removing the soil build ups.
- Contains 200ppm quat antibacterial agent

Application

- Apply with mop or spray
- Safe for use on quarry tile, ceramic tile and vinyl

Application areas

- Food Service
- Hospitality
- Lodging
- Healthcare
- Food Service

Bio-Floor Plus

D3.7

No-Rinse Probiotic Floor Cleaner and Deodoriser.

Directions for use

1. Dispense proper strength solution of product and warm or hot water in a mop bucket. Sweep up and remove solid waste from floor before applying.
2. Post “Wet Floor” signs around area to be cleaned and use a clean mop to apply the cleaning solution generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout.
3. Repeat if necessary on heavily soiled areas. Pick up soil and excess solution with a tightly wrung out mop, wringing it out frequently, or squeegee to floor drain.
4. Dry mop or squeegee floor dry or allow floor to air dry before reuse. Once dry, remove “Wet Floor” signs. A potable water rinse is only required for those surfaces that may contact edible product. Pour unused Bio-Floor Plus Cleaner from mop bucket into kitchen floor drain for daily maintenance.

NOTE: Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials. See container for lot number.

Storage: Do not store in food processing or food storage areas. Shake well before using if product has settled.

For Food Plant Use: Not for use on food contact surfaces. Avoid contamination of food during use or storage..

Technical data

Appearance	Green, liquid	Relative density (20°C)	1.01
pH (neat)	8.8 (Concentrate)	Dilution	1:384

The above data is typical of normal production and should not be taken as a specification.

Product	Pack size	SKU Code	Availability
Suma® Bio-Floor Plus	4 x 3.78L	101103121	AU & NZ
