

Product Technical Bulletin

Product Name: WYPALL* Colour Coded Wipers

Description:

WYPALL* Colour Coded Wipers are versatile, offering effective and hygienic cleaning. The wipers are ideal for use in food preparation and food service applications. They can be used for soaking up spills, absorbing up to 7 times their own weight. They are reusable, are easily rinsed clean and are available in different colours for easy task segregation. The wipers are available in Regular & Heavy duty for all your cleaning needs. The wipers are produced in a HACCP certified facility.

Key applications include:

- Wiping surfaces
- Absorbing liquid spills
- Cleaning sinks, grills, ovens and machinery

Workmanship standard:

Wipers are made in accordance with reasonable industry practice with respect to holes, tears, wrinkles, cleanliness and foreign materials or dirt. Edges are cleanly cut and not ragged. Wipers are folded as specified. Wipers have no disagreeable odour, either wet or dry, in accordance with reasonable industry practice.

Ingredients:

These wipers are made from a spunlace non-woven fabric comprising;

Viscose rayon	75 - 85%
PET	15 - 25%
Pigment	<1%

Product Technical Bulletin

Not classified as hazardous according to the criteria of NOHSC

Additional Information:

Health Effects

When used according to the company's directions and for the purpose for which they were intended, these wiping cloths will not have any adverse health effects.

First Aid

Ingestion: Remove any material causing obstruction. Seek medical attention if swallowed accidentally.

Eye: Remove any foreign matter and flush with water. Seek medical attention if irritation persists.

Skin: Non irritant. Product is intended to be used in direct contact with skin.

Inhalation: Remove any material causing obstruction.

Precautions for Use

Will burn if subject to excessive heat or flame. Do not use wiping cloths to clean or remove any material over 100°C. Burn properties change if flammable or combustible fluids are absorbed into the wiper.

Safe Handling Information

Store away from any source of ignition. May react with strong oxidising agents e.g. pool chlorine. Fire fighters should wear personal protection and self-contained breathing apparatus. Use fire fighting media suitable for principal cause of fire. Do not allow product to enter drains or waterways.

Disposal Information

Disposal of uncontaminated wiper to ordinary landfill or properly managed municipal incineration is suitable. Dispose contaminated wipers in accordance with local regulations.
