

USL MEDICAL CREPE BANDAGES

COTTON CREPE BANDAGE

- High quality crepe bandage made from cotton.
- Used as a retention bandage to maintain dressings in place or for support following a sprain, strain, or minor injury
- Can be wrapped around the wrists, elbows, hands, and other joints.
- Light support

FEATURES & BENEFITS

- Permeable to air and resistant to grease, oils, ointments and perspirations
- Elastic and stretchable, does not inhibit mobility
- Designed to avoid skin irritation
- Creates compression to control blood flow and help avoid swelling
- Individually wrapped to maintain cleanliness and hygiene
- Conforms to body
- Simple to use
- Latex Free
- Single Use
