

USL MEDICAL CONFORMING BANDAGES

POLYESTER CONFORMING BANDAGE

- High quality conforming bandage made from polyester
- Primarily used as a universal dressing retention bandage. Can also be used to provide compression for strains or sprains and limiting blood flow whilst managing pain and swelling
- Light protection
- Used within 24-48 hours after an injury and worn for around 48-72 hours.

FEATURES & BENEFITS

- Permeable to air and resistant to grease, oils, ointments and perspirations
- Comes with flexible fabric that clings to itself and does not require a clip to fasten
- Designed to avoid skin irritation
- Individually wrapped to maintain cleanliness and hygiene
- Conforms to body
- Simple to use
- Latex Free
- Single Use
