

NEW uvex pheos guard

The uvex pheos guard is the latest addition to the popular uvex pheos range. It comes in two sizes and can be fitted to any of the uvex pheos spectacles. The guard offers sealed dust protection while also maintaining a high level of comfort. This guard combined with uvex's outstanding anti-fog resistance makes the product system the prime option for high-dust, windy and humid working conditions.

FITTING INSTRUCTIONS

STEP 1
Insert the uvex pheos guard tab through the first hole in the uvex pheos frame arms on both sides.

STEP 2
Clip to lens edge.

STEP 3
Repeat step two on opposite side of lens ensuring tab is clipped on securely.

STEP 4
Finally clip centre bridge tab to lens edge. You are now ready to wear your spectacles.
